

5th November 2021

Inclusion North News

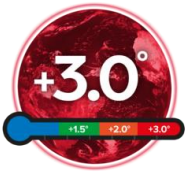

Inclusion North will share an important news story and tell you about their own work here every two weeks.

COP26 The Climate Change Conference

This week 120 leaders from all over the world went to the Climate Change Conference in Glasgow called COP26.

They met to think about how to save our planet from pollution and the earth's temperature rising.

We have a new group at Inclusion North made up of Staff, Directors and Advisory Council Members. The group is called Take Action to Help Stop Climate Change.

We cannot find much information in Easy Read about climate change or COP26. Our group is looking at what information people need to help them think about what they can do to help stop climate change.

We also found it really upsetting that an Israeli Minister could not get into the climate change conference as it was not accessible for her wheelchair. She had to go back to her hotel 50 miles away.

Winter Festival of Inclusion

We are having an online winter festival of inclusion this year from the 1st December to 10th December.

The festival will celebrate the work and achievements happening in our member areas in the North East, Yorkshire and Humber.

The festival is for everyone who is passionate about real inclusion for people with a learning disability, autistic people and family carers.

There will be lots of things taking place over the 10 days. We will share more information with you soon.

GUEST SPEAKERS, LEARNING, SHARING AND CREATIVE SESSIONS

Look out for more information
on the 15th November
