

7th March

Inclusion North News

Inclusion North will share an important news story or tell you about their work every 2 weeks

Rebecca Cole, the Regional Manager for Inclusion North, left us last week after working with us for over eight years.

We want to thank Rebecca for her hard work and for being a brilliant team member.

If you usually contact or work with Rebecca, please contact Maria or Hannah who are the new contacts for Yorkshire and Humber.

You can learn more about Maria and Hannah on the Inclusion North website in the staff team profiles.

Cuckooing will be made a criminal offence.

The name Cuckooing comes from a type of bird. Cuckoos are known for taking over the nests of other birds.

Cuckooing is when someone makes friends with you and then uses your home to do things that are against the law.

This might be things like selling drugs from your home or take over your home to make drugs or store stolen goods.

If you think this is happening to you, please tell someone you trust, or if you are in a safe place call the police on 101.

Wellbeing Tip

March means the start of Spring.

Try to get outside and see if you can spot any spring flowers. Why not take some photographs and learn the different names of the flowers.
