Inclusion North News

Involving Everyone

Involving Everyone is a project at Inclusion North.

This is about making sure people with a Profound and Multiple Learning Disability (PMLD) are seen and included in their communities.

What is a Profound and Multiple Learning Disability (PMLD)?

People have more than one disability.

They have a very **severe learning disability**.

They may also have **physical disabilities, sight or hearing problems, or serious health problems** like epilepsy.

They will probably need 24-hour care and support.

What are we doing?

Facebook Group: Community of Practice

This is a private Facebook group for **family carers, support workers** and **professionals**.

- Share good news, ideas, and advice.
- Help make life better for people with a Profound and Multiple Learning Disability, and their families.

You can join the group by emailing
Joanna.Routledge@inclusionnorth.org

Research Project

We are working with **Little SENDsations**.

They are talking to **family carers** in the North East and Cumbria.

They want to find out what activities and opportunities are available for people.

To get involved, email:

wslittlesendsations@gmail.com

Quality Checking

We are creating **Quality Checks** for services for people with a Profound and Multiple Learning Disability, with **Skills for People**.

Quality Checkers are people who use services and family carers.

They are trained and paid to check how good services are.

We want **family carers** to tell us what is important to check.
